COMMENT

5-28-26 (AJ) Travel to machine location and confirm complaint. Connect EST to machine and check Fault codes. Codes listed in machine are for water in fuel sensor 3688, occurrences of 49 times. Open machine monitoring parameters and review the operator seat position switch. Find the seat switch IS NOT changing between forward and reward facing positions. Inspect seat switch and find switch is damaged. Remove the existing switch from lower seat base and begin to install new switch. Once new switch installed. test operation of machine and could not duplicate the concern again. Drained bottom of fuel water separator and start machine again. Machine is continuing to display fault code for the water in fuel alarm. Suggest to replace the water in fuel sensor.
